Skills

Flutter	<div><div></div></div>
Figma	<div><div></div></div>
React	<div><div></div></div>
Tailwind	<div><div></div></div>
Firebase	<div><div></div></div>

Strength

 Continuous learning
 Creative
 Team work

Education

Software engineering AAiT

Profile

Passionate designer and mobile developer with a strong drive to learn. Skilled increasing visually appealing interfaces and developing efficient mobile app Committed to stay updated.

Internship

UI/UX design	RDX
This experience helped me get better at design and taught me a lot about how design works in a professional setting.	

Projects

• Teraki app

The Teraki app simplifies the discovery and management of PDF and audio books based on user interests. It offers search, filtering, and the ability to add or remove books from a favorite list.

• Felagi app

The Felagi app facilitates posting found or lost items, donating to students in need, and staying updated on campus news through its notice board feature.
